rishabhedu6@gmail.com | P: +91 9372789216 | [LinkedIn](#) | [Rishabh.dev](#) | [GitHub](#)

Enthusiastic and results-driven **Electronics and Computer Science** student with a strong interest in **Data Science**. Skilled in both software and hardware, with a keen analytical mindset for uncovering insights and solving complex problems. Passionate about leveraging data to drive innovation, with proven **teamwork, leadership, and communication abilities**.

CERTIFICATION

Introduction to Analytics <i>Great learning</i>	<i>July 2023</i>
Developed a strong understanding of data interpretation, statistical analysis, exploratory data techniques, and their application in deriving actionable insights.	
The Complete Python Bootcamp <i>Udemy</i>	<i>Sep 2024</i>
Completed the "Python Bootcamp" course on Udemy, gaining a strong foundation in Python programming, including data structures, file handling, functions, application development, and problem-solving techniques.	
Generative AI Revolution <i>AspireForHer</i>	<i>Sep 2024</i>
A Webinar from AspireForHer and AWS on Generative AI exploring its applications, tools, and future impact on technology and creativity.	
Data Analysis and Visualization <i>Forage</i>	<i>Dec 2024</i>
Learned data cleaning, visualization, statistical analysis, and extracting insights from datasets.	

PERSONAL PROJECTS

WealthWise: An AI based Stock Analyst	<i>Jul 2024 – Apr 2025</i>
- Developed an AI-powered stock analysis tool using Streamlit, Google Gemini, and yFinance. - Integrated technical indicators (RSI, MACD, EMA, ADX, Bollinger Bands) for investment insights. - Implemented real-time news sentiment analysis using VADER and News API. - Delivered AI-driven buy/sell recommendations with personalized stop-loss calculations.	
Doctor Patient Appointment System	<i>Dec 2023 – Jun 2024</i>
- Developed a web-based appointment system for streamlined doctor-patient scheduling and management. - Integrated real-time chat and notification features for appointment confirmations and updates. - Implemented secure login and role-based access for patients, doctors, and admins. - Enabled doctors to set availability and patients to book, reschedule, or cancel appointments.	
Pharmacy Management System	<i>Jan 2023 – Dec 2023</i>
- Developed a Pharmacy Management System in Java to handle medicine inventory and billing. - Implemented real-time stock tracking in MySQL and invoice generation. - Enabled secure login and role-based access for pharmacists and administrators. - Added dashboards for daily sales reports and medicine availability	

WORK EXPERIENCE

Software Development – Prodigy Infotech	<i>Sep 2024 – Oct 2024</i>
- Followed project guidelines and developed the applications as per the guidelines. - Collaborated on full-stack development projects using HTML, CSS, JavaScript, and Python to deliver responsive and user-friendly web applications. - Gained exposure to real-world development practices and improved understanding of the software development lifecycle.	

EDUCATION

SIES Graduate School of Technology <i>Bachelor of Engineering, Electronics and Computer Science</i>	<i>Jul 2021 – Jul 2025</i>
- Cumulative GPA : 8.62 - Selected for Zonal Round of Smart India Hackathon - IEEE Conference Paper published	
HSC R.V. Nerurkar Junior College	<i>Jul 2019 – Apr 2021</i>
- Cumulative GPA: 89 % - District Level Volleyball	

SKILLS

Technical: SQL, Java, Python, Excel, HTML, CSS, Data Analysis
Tools: MySQL, SQL Server, Google Collab, MongoDB
Hard Skills: Data Analysis, Machine Learning, DSA, DBMS
Soft Skills: Analytical Thinking, Team Player, Leadership, Collaboration, Decision Making.
